CLEVELAND'S ACCEPTANCE.

We print in full this morning the letter of acceptance of President Cleveland. It is idle to say the letter is weak and the work of a demagogue. It is an able political document prepared by the greatest political leader in the democratic party. Four years ago Cleveland was a novice in national politics. To day he absolutely controls the party and its leaders Bayard Garland, Lamar, Vest, Mellon and Wallace, Carlisle and others, who have national reputations when Cleveland was sheriff in Erie county, bow submissively to his judgment and follow his lead. He is a greater politician than Tilden, because, while having an equal grasp of public questions and a like ability to read public opinion, he has both courage and audacity. The Democratic party was characterized by courage, the retaliatory message by audacity. This letter, while having distinctly of the above qualities to denote authorship, shows pre eminently the hand of the astute politician. His utterances are bold and apparently frank that it has not occurred to most readers that they were the words of a politician. But the reader of this letter will have no difficulty in recognizing the politician. He has made the best possible plea to remove the issue of free trade and protection from the canvass. He declares definitely that he is for the protection of American industries and labor, and yet argues for free raw material, a larger foreign market, cheaper living in a way that must gratify any free trader. He was wise in leaving the word Chinese out of his letter and wiser in protesting against the importation of those "who crowd every field of employment with unintelligent labor at wages which ought to support only intelligent American citizenship." Except what he has to say about trusts, we have referred to all of his positive utterances. These are politic and cannot easily be used against him.

But his greatest wisdom was shown in his selection of the subjects he should not speak about. He is sidentically quiet about civil service reform. Four years ago he gave us lengthy opinions on this subject which were influenced on practical experience. These opinions largely won the mugwump vote. Now after four years experience he can speak authoritatively on the subject. Yet he practically gives us nothing but a glittering generality on the subject. He was wise in this because his administration has been hardly consistent with the principles of reform he must enunciate if he speaks at all. He says nothing about the dangers of a second term, the frequent use of troops that are sure to follow. The gross outrages of the ballot in the south do not elicit a protest. With more sense than either national convention he does not discuss the rule. There are no professions, no platitudes, no quotations. The demagogue is not apparent though possibly there is too much talk about "duty" "serving the people" and other things which go without saying.

We say the document is strong because it has offered so few points of attack and the points it offers are those on which the author wishes to fight. But fortunately the letter cannot limit the issues. The letter of 1884, the record of the administration, the known hypocritical professions and bad tendencies of the party behind will present issues that the silence of Cleveland's letter cannot hush.

Most exciting news comes from the election in Maine. Bremer places the plurality at twenty thousand—the largest since 1866. But one of the congressional districts the First was considered at all doubtful. Reed's re election from that district is now secured by double his former majority. Since Cleveland started his message was sent to congress five states have spoken. Rhode Island, Oregon, Vermont, Arkansas and Maine—and in each the republican vote has been largest and the democratic vote smaller, than at the preceding election. The result in Maine is more significant because the democrats were hopeful and thoroughly organized.

There should be a large attendance at the republican ratification this evening in Court House hall. It is expected that the local candidates will be present and address the meeting, thus giving all citizens an opportunity to see and become acquainted with the men who are to be chosen at the polls in November. El Paso county has done well in making in the choice of such an excellent state ticket, and in making good selections for local honors in her own convention. Every republican should join in ratifying the party's nominees this evening.

The official crop report of the interior department shows that this country will be able to meet a large part of the shortage of the cotton states. The wheat crop is a fair one and will yield a considerable amount for import. The corn crop will probably be the greatest ever harvested. Its condition is nearly perfect and amounts in quantity to quite two billion bushels.

Fire at Greenwood.

DENVER, September 10.—A Glenwood Springs special to the Times says: A fire, which threatened at one time to be most disastrous, broke out this morning shortly before 4 o'clock, and nothing but heroic work on the part of the fire department and the absence of strong wind prevented a serious catastrophe. That it was the work of an incendiary is now not questioned, and every measure will be taken to fully investigate the case and bring the offender to justice.

At the hour named a heavy volume of smoke, soon followed by flames, was discovered coming from the rear of the millinery store of Miss Hawkins on Grand avenue. The buildings were of wood and the structures next to the dry goods store of Tucker & Teagarden, whose stock was damaged to the extent of $1000. On the other side the Glenwood National bank building was damaged somewhat by fire and water, but the flames succeeded in preventing further loss. Miss Hawkins millinery store, where the fire originated, was totally destroyed.

The two frame buildings were owned by William Gelder, and his loss will probably amount to $2,500.

Miss Hawkins' stock of millinery was valued at $2000, on which she has insurance of $1000.

Tucker & Teagarden estimate their damage at about $1000, fully covered by insurance, but the names of the companies are not known.

The Glenwood National bank building was damaged about $800, chiefly by water, and their insurance will fully cover the loss.

Selling Cure.

Angelo's tourist agent is tricky within the law. Under one lapel of his coat is a Cleveland badge and under the other is a Harrison. He goes in a car with a [illegible] politics gracefully until the other side of his prospective victim declares himself, and then mostly turns over the coon [illegible] lapel. We Need Health to ——

To have health! That is, to be in accord with the right motion of the earth in her orbit, with the growth of her plants, with the flowing of her tides. Not to have it is to be out of tune with the universe. If it is not your sin, it is the sin of some one in the past come to light in you; the combined sin, perhaps, of many breakers of law. That great things have been wrought by those whose health was a thing of doubt or a thing beyond doubt, being so helpfully deficient, is not to be denied, by men and women whose hearts, whose stomachs, whose [illegible] whose nervous systems, each only perhaps [illegible] have been in rare and exceptional instances, and the work done has seldom been more than the completion of that begun in health, and [illegible] only finds the [illegible] then acquired.
